EXECUTIVE PRODUCT DESIGN LEADER

Enterprise Design Systems | Digital Experience Architecture | Conversion Rate Optimization (CRO)

Product Design Leader and Staff UX Architect driving digital experience transformation, full-funnel e-commerce optimization, and measurable revenue growth (\$9.6M lift) across global enterprise platforms. [Baymard Certified UX Practitioner](#) (Tier 2) specializing in user journey architecture, intake/checkout optimization, and scalable Figma design systems. Proven track record leading multidisciplinary teams and partnering with engineering and product management to ship high-trust digital solutions.

CORE EXPERTISE

- **Product UX/UI Strategy:** User-Centered Design (UCD), Information Architecture, Onboarding & Intake Funnels, Rapid AI Prototyping.
- **Design Systems & Scalability:** Enterprise Figma Architecture, Design Tokens, Component Libraries, Governance, Cross-Brand Theming.
- **Conversion Science & Experimentation:** Baymard Heuristic Analysis, [Adobe Target](#), Hypothesis-Driven A/B Testing, Quantitative Behavioral Analytics.
- **Cross-Functional Leadership:** Product & Engineering Alignment, Team Mentorship, Stakeholder Management, Agile/Scrum Delivery.

PROFESSIONAL EXPERIENCE

Scentsy, Inc.	Meridian, ID
<i>Digital Experience Manager / Product Design Lead</i>	<i>June 2018 - Present</i>
● Direct end-to-end digital experience and conversion architecture across a global e-commerce platform, generating a verified \$9.6M top-line revenue lift. ● Architected and scaled a centralized enterprise Figma design system, deploying design tokens, shared component libraries, and documentation that eliminated UI inconsistencies and accelerated engineering handoff. ● Lead the UX architecture for high-stakes customer pathways, including complex subscription flows, consultant onboarding portals, and responsive checkout experiences. ● Established a structured A/B experimentation pipeline using Adobe Target and Baymard-certified usability heuristics to validate hypotheses and eliminate conversion drop-offs. ● Manage and mentor a multidisciplinary team of product designers and front-end developers, implementing rigorous design critique standards and modern AI-accelerated workflows.	
Micron Technology, Inc.	Boise, ID

- Directed the global direct-to-consumer and B2B digital experience for crucial.com and ballistixgaming.com, driving record international sales volume and customer retention across a 14-year tenure.
- Led the UX architecture for the global Adobe Experience Manager (AEM) enterprise re-platforming, establishing modular UI frameworks across multi-region, multi-currency deployments.
- Designed specialized memory upgrade selector tools that translated complex technical hardware specifications into error-proof, single-click purchase journeys.
- Directed usability testing sessions, behavioral funnel analytics, and multivariate experiments to systematically reduce checkout friction and cognitive load.

EDUCATION & CERTIFICATIONS

- ---

Baymard Certified UX Practitioner (Tier 2): E-Commerce UX, Checkout Optimization, Navigation & Mobile Usability, [Baymard Institute](#).
- **Bachelor of Arts (BA), UI Design & Visual Communications:** University of Idaho, Moscow, ID.

TECHNICAL TOOLKIT

- ---

Design & Prototyping: Figma (Tokens, Auto-Layout, Variables, Component Architecture), Adobe Creative Cloud, Rapid AI Prototyping Tools.
- **Testing & Analytics:** Adobe Target, Optimizely, Google Analytics, UserTesting, Qualtrics, Hotjar.
- **Enterprise Delivery:** Adobe Experience Manager (AEM), Jira, Confluence, Agile/Scrum Frameworks.
